

Dear Sir / Madam,

We are glad to share with you two new colors from our Revo Collection - **Revo Botticino** and **Revo Thassos White** - and that we are going to exhibit in a great international event: **Coverings**.

If you feel inspired, contact us. We would be glad to try to make your ideas come true!

COVERINGS 2019 | REVO BOTTICINO | REVO THASSOS WHITE

COVERINGS 2019

For the first time, we will be exhibiting at Coverings our top products! This year's edition will take place in **Orlando, USA**, from **April 9th to 12th**.

Will you attend the event, as well?

If so, we would love to meet you, talk a bit more about your projects and discuss how we can collaborate. Visit our booth (**#4451**) and come talk to us.

We hope to meet you there!

REVO BOTTICINO

One of our newest products is **Botticino** from our **Revo Collection**.

This new product excels by its simplicity and class. Its creamy base without visible grains, decorated with delicate golden and white veins create an effect of depth and movement. It's a great addition to our portfolio, providing our most exigent clients with a great option.

REVO THASSOS WHITE

We felt that we were missing a fundamental product in our portfolio. We wanted a pure and soft white product. That is the reason why **Revo Thassos White**, from our **Revo Collection**, was created.

This product primes on its versatility. It allows us to combine it with other and bolder colors, creating a cohesive look.

STAY IN TOUCH

We look forward to cooperate with you. Should you have any questions, do not hesitate to contact us directly.

www.rmc.pt

RMC products are a **high-quality engineered marble**. From the price/quality ratio aspect, this is likely the best material for vanity tops, floors or wall cladding. The product has been **produced in Portugal since 1980**.
